

Notice of Privacy Practices

THIS NOTICE DESCRIBES HOW YOUR MEDICAL INFORMATION MAY BE USED AND DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATION.

PLEASE REVIEW IT CAREFULLY

This Facility is required by law to provide you with this Notice of Privacy Practices (hereafter: “Notice”) so that you will understand how we may use or share your information from your Designated Record Set. The Designated Record Set includes financial and health information referred to in this Notice as “Protected Health Information” (“PHI”) or simply “health information.” We are required to adhere to the terms outlined in this Notice, to maintain the privacy of your PHI, and to notify affected individuals of a breach of unsecured PHI. If you have any questions about this Notice, please contact our HIPAA Compliance Officer.

UNDERSTANDING YOUR HEALTH RECORD AND INFORMATION

Each time you are admitted to our Facility, a record of your stay is made containing health and financial information. Typically, this record contains information about your condition, the treatment we provide and payment for the treatment. We may use and/or disclose this information to:

- plan your care and treatment
- communicate with other health professionals involved in your care
- document the care you receive
- educate health professionals
- provide information for medical research
- provide information to public health officials
- evaluate and improve the care we provide
- obtain payment for the care we provide

Notice of Privacy Practices

Understanding what is in your record and how your health information is used helps you to:

- ensure it is accurate
- better understand who may access your health information
- make more informed decisions when authorizing disclosure to others

HOW WE MAY USE AND DISCLOSE PROTECTED HEALTH INFORMATION ABOUT YOU

The following categories describe the ways that we use and disclose health information. Not every use or disclosure in a category will be listed. However, all of the ways we are permitted to use and disclose information will fall into one of the categories.

For Treatment

We may use or disclose health information about you to provide you with medical treatment. We may disclose health information about you to Facility personnel who are involved in taking care of you at our Facility. Different departments of a Facility also may share health information about you in order to coordinate your care. We may also disclose health information about you to people outside the Facility who may be involved in your care after you leave a Facility. This may include family members, or visiting nurses to provide care in your home.

For Payment

We may use and disclose health information about you so that the treatment and services you receive at a Facility may be billed to you, an insurance company or a third party. For example, in order to be paid, we may need to share information with your health plan about services provided to you. We may also tell your health plan about a treatment you are going to receive to obtain prior approval or to determine whether your plan will cover the treatment.

Notice of Privacy Practices

For Health Care Operations

We may use and disclose health information about you for our day-to-day health care operations. This is necessary to ensure that all residents receive quality care. For example, we may use health information for quality assessment and improvement activities and for developing and evaluating clinical protocols.

We may also combine health information about many residents to help determine what additional services we should offer, what services should be discontinued, and whether certain new treatments are effective. Health information about you may be used for business development and planning, cost management analyses, insurance claims management, risk management activities, and in developing and testing information systems and programs. We may also use and disclose information for professional review, performance evaluation, and for training programs.

Other aspects of health care operations that may require use and disclosure of your health information include accreditation, certification, licensing and credentialing activities, review and auditing, including compliance reviews, medical reviews, legal services and compliance programs. Your health information may be used and disclosed for the business management and general activities of the Facility including resolution of internal grievances and customer service.

In limited circumstances, we may disclose your health information to another entity subject to HIPAA for its own health care operations. We may remove information that identifies you so that the health information may be used to study health care and health care delivery without learning the identities of residents.

We may disclose your age, birth date and general information about you in the Facility newsletter, on activities calendars, and to entities in the community that wish to acknowledge your birthday or commemorate your achievements on special occasions. If you are receiving therapy services, we may post your photograph and general information about your progress.

OTHER ALLOWABLE USES OF YOUR HEALTH INFORMATION

Business Associates

There may be some services provided in our Facility through contracts with business associates. When these services are contracted, we may disclose your health information so that they can perform the job we've asked them to do and bill you or your third-party payer for services rendered. To protect your health information, however, we require the business associate to appropriately safeguard your information.

Notice of Privacy Practices

Treatment Alternatives

We may use and disclose health information to tell you about possible treatment options or alternatives that may be of interest to you.

Health-Related Benefits and Services and Reminders

We may contact you to provide appointment reminders or information about treatment alternatives or other health-related benefits and services that may be of interest to you.

Individuals Involved in Your Care or Payment for Your Care.

Unless you object, we may disclose health information about you to a friend or family member who is involved in your care. We may also give information to someone who helps pay for your care. In addition, we may disclose health information about you to an entity assisting in a disaster relief effort so that your family can be notified about your condition, status and location.

As Required By Law

We will disclose health information about you when required to do so by federal, state or local law.

To Avert a Serious Threat to Health or Safety

We may use and disclose health information about you to prevent a serious threat to your health and safety or the health and safety of the public or another person. We would do this only to help prevent the threat.

Organ and Tissue Donation

If you are an organ donor, we may disclose health information to organizations that handle organ procurement to facilitate donation and transplantation.

Notice of Privacy Practices

Military and Veterans

If you are a member of the armed forces, we may disclose health information about you as required by military authorities. We may also disclose health information about foreign military personnel to the appropriate foreign military authority.

Research

Under certain circumstances, we may use and disclose health information about you for research purposes. For example, a research project may involve comparing the health and recovery of all residents who received one medication to those who received another, for the same condition. All research projects, however, are subject to a special approval process. This process evaluates a proposed research project and its use of health information, trying to balance the research needs with residents' need for privacy of their health information. Before we use or disclose health information for research, the project will have been approved through this research approval process. We may, however, disclose health information about you to people preparing to conduct a research project so long as the health information they review does not leave a Facility.

Workers' Compensation

We may disclose health information about you for workers' compensation or similar programs. These programs provide benefits for work-related injuries or illness.
